DEN NORSKE LEGEFORENING

Onsdag 26.Oktober - NKKF and Norkar Carotid symposium

Guest Lecturer: Professor Alison Halliday - University of Oxford

Session I: Introduction and status for carotid surgery in Norway

0830 - 0900 Results of carotid surgery in Norway – what is in the registry
Results of the carotid audit – how do we do it? Martin Altreuther

Session II: Workup and referral routine for patients with symptomatic stenosis – How does the preoperative collaboration work?

0900 - 0945 The stroke physicians' perspective
The neurologist's perspective
Discussion: Key points for optimal collaboration - stroke physician and surgeon Fredrik Ildstad
Mona Skjelland

0945-1015 **Coffee break**

Session III: Perioperative routine and anesthesia

1015 - 1100 Perioperative routine – results from the carotid audit
The anesthesiologist's perspective
Discussion: Key points for optimal collaboration - anesthesiologist and surgeon Martin Altreuther
Klaus Risnes

1100 – 1200 **Lunch**

Session IV: Surgical technique

1200-1300 Surgical technique for CEA at Rikshospitalet
Video presentation by Beate Lindberg
Surgical technique for CEA in Drammen
Surgical technique for CEA in Oxford
Discussion: Key points for surgical technique for carotid endarterectomy Kirsten Krohg Sørensen
Karsten Myhre/Øyvind Skoe
Alison Halliday

Session V: Management of perioperative complications - case reports

1300-1340 Dissection and acute stenting after CEA
A wakeup nightmare after CEA
Discussion – how to handle perioperative stroke?

Frode Aasgaard
Martin Altreuther

1340-1400 Coffee break

Session VI: Asymptomatic carotid stenosis

1400-1500 Results and Implications of the ACST-2 study
Discussion: How to treat asymptomatic carotid stenosis - do we need a new ACST study against current BMT?

Alison Halliday

1500-1530 Coffee break

Session VII

15.30 – 15.45 Status Carotid surgery Haukeland university hospital

Espen Gubberud

15.45 – 16.00 Carotid Surgery at Østfold Hospital 2017 -2021

Anne Krog

Session IX Panel Discussion

1600-1700 How can we improve carotid surgery in Norway?
Technical aspects
Organizationally and logistical challenges
Panel with Alison Halliday, Kirsten Krohg Sørensen, Fredrik Ildstad, Klaus Risnes., Mona Skjelland, Karsten Myhre, Martin Altreuther

Torsdag 27.oktober – Frie Foredrag, Norkar, Forskningsutvalget, Rastløse bein, General forsamling

Sesjon 1	Frie Foredrag & NORKAR	Moderator:
08.30	Endovaskulær behandling av aneurismer i Vestre Viken 2013-2022	Lars Borgen
08.40	RESULTATER ETTER KONVERTERING AV EVAS.	Svein R. Mathiesen
08.50	Aortascreening ved Oslo Universitetssykehus - elleve års oppfølging av screening-deltakere.	Saira Mauland Mansoor
09.00	Sviktende underarmsfistel som holdes åpen via arteria ulnaris.	Svein Amundsen
09.10	Ny hybrid operasjonsmetode viser bedret stentpatency hos pasienter med posttrombotisk venøs iliofemoral obstruksjon	Øystein Rognerud
09.20	Pasienter med kronisk mesenteriell iskemi og median arcuate ligament syndrom (MALS) har økt plasma alfa-GST	Nathkai Safi
09.30	10 års erfaring med median arcuate ligament syndrom (MALS) – 52 pasienter	Syed Sajid Hussain Kazmi
09.40	NORKAR	
10.30	KAFFE/PAUSE	
Sesjon 2	Frie Foredrag & Forskningsutvalget	Moderator:
11.00	Operasjon for abdominal aortaaneurisme hos nittiåringer	Martin Altreuther
11.10	Nasjonal Støtte til Lokal utvikling?	Espen Gubberud
11.20	Forskningsutvalget	Morthen Vetrhus, Martin Bjork
12.30 – 13.30	LUNSI	
Sesjon 3	Rastløse Bein	Moderator:
13.30	Kronisk venøs insuffisiens eller rastløse bein?	Alfred Arvesen
13.50	Rastløse Bein	Einar Kinge
14.10	Paneldebatt - Alfred Arvesen, Einar Kinge, Espen Gubberud, Carl Erik Slagsvold, Kristian Bernhard Nilsen	
14.50	European Vascular Research Collaborative (EVRC)	Bergros Johannisdottir
15.00	KAFFE/PAUSE	
15.30 - 1700	Generalforsamling Norsk Karkirurgisk forening
