

A course at the annual meeting (Autumn) of the Norwegian Society for Vascular Surgery 2023, Oslo Norway

Tuesday, October 24, 2023 (0900 – 1600 Local time)

Title: Acute and chronic mesenteric ischemia

Target groups: Vascular surgery, intervention radiology, gastric surgery, gastroenterology, and general surgery.

Objectives: Improvement in investigation, treatment, and follow-up of acute and chronic mesenteric ischemia patients. Focus on multidisciplinary cooperation and collaboration.

Content: Presentations, patient interview, discussions, comments, and panel debates.

Course Committee: Jon Otto Sundhagen¹vascular surgeon, Head of Vascular Department; Professor Asle Medhus² gastroenterologist, Tom A Wiik³ gastric surgeon, Ole Grøtta⁴ intervention radiologist; Professor Jonny Hisdal¹ circulation physiology and Syed Sajid Hussain Kazmi vascular surgeon (Chairperson) ¹

¹ Department of Vascular surgery, Oslo University Hospital, Ullevål; ² Department of Gastric medicine, Oslo University Hospital, Ullevål ³ Department of gastric and pediatric surgery, Oslo University Hospital, Ullevål, ⁴ Department of Intervention radiology, Oslo University Hospital, Ullevål.

Course address: Meet Arena, Ullevål Stadion, Oslo.

Contact information: Norwegian Society for Vascular Surgery.

e-post: sshkazmi@gmail.com; sshkazmi@medisin.uio.no; syekaz@ous-hf.no

Guest speakers: Professor Nabil Chakfe, Strasbourg, France, and Dr Floor Metz, Nederland

Registration deadline: 23.10.2023 (Open for all participants at the Høstmøte)

Program details

- 0900 -0910 Introduction (**SSH Kazmi – Oslo University Hospital_Ullevål**)
- 0910-0920 Patient interview.
- 0920-0935 Vascular anatomy, pathophysiology mesenteric ischemia. (**Gorm Edwin, Oslo University Hospital_Ullevål**)
- 0935-0950 How good is transabdominal Duplex ultrasound investigation of patients with compression syndromes? (**Professor Jonny Hisdal, Oslo University Hospital_Aker and Ullevål**)
- 0950-1005 Transoesophageal duplex ultrasound- an investigation option for the patients with mesenteric artery disease? (**Kim V Ånonsen, Oslo University Hospital_Ullevål**)
- 1005-1020 Status of investigation, treatment and ongoing research on celiac artery diseases in Nederland (**Floor Metz – Nederland**)
- 1020-1040 Challenges to investigate Nutcracker syndrome- how are the results of its treatment? (**Professor Nabil Chakfe – Strasbourg, France**)

- 1040-1055 Is renal autotransplantation a treatment option for the patients with Nutcracker syndrome-who and when? (**Professor Pål-Dag Line, Oslo University Hospital_Rikshospital**)

1055-1110 Coffee break

- 1110-1125 Superior mesenteric artery syndrome - how to deal with this diagnosis? (**Rubin Gaupset, Akershus University Hospital, Lørenskog**)
- 1125-1140 Nutritional strategies for the patients with mesenteric ischemia. (**Nicole Warmbrodt, Oslo University Hospital_Rikshospital**)
- 1140- 1155 Pain management in the patients with chronic mesenteric ischemia- when and what can be achieved? (**Audun Stubhaug, Oslo University Hospital_Ullevål**)
- 1155--1210 Questions from the participants.

1210-1300 Lunch

- 1300-1315 Surgical management of median arcuate ligament syndrome (**SSH Kazmi, Oslo University Hospital _Ullevål**)
- 1315-1330 Endoscopic investigation of a patient with chronic abdominal pain. (**Arne Rødset, Louvisenberg Diakonale Hospital, Oslo**)
- 1330-1400 Radiological investigations and interventions? (**Ole Jørgen Grøtta, Oslo University Hospital_Ullevål**)
- 1400-1420 A patient with acute mesenteric ischemia – a vascular surgeon’s perspective. (**Simen Tveten Berge, Hospital Innland, Hamar**)

1420- 1435 Coffee break

- 1435-1450 A patient with acute mesenteric ischemia – a gastric surgeon’s perspective. (**Wik Tom-Andreas, Oslo University Hospital_Ullevål**)
- 1450-1520 Vascular surgery approaches for acute and chronic mesenteric ischemia? (**SSH Kazmi, Oslo University Hospital_Ullevål**)
- 1520- 1550 Discussion/ Panel debate.
- 1550-1600 Summary and Closing words. (**SSH Kazmi, Oslo University Hospital_Ullevål**)
